

January 5, 2016

Dear College Counselor:

Your students are invited to apply to the Management & Technology Summer Institute (M&TSI) sponsored by the Jerome Fisher Program in Management and Technology, the Wharton School, and the School of Engineering and Applied Science at the University of Pennsylvania. The Jerome Fisher Program is Penn's oldest coordinated dual-degree program, combining the fields of engineering and business.

M&TSI gives students a unique opportunity to explore the combination of engineering, business, and entrepreneurship on a dynamic and vibrant Ivy League campus. Our program is led by Penn professors and guest lecturers and includes site visits to companies and exercises and activities designed to coach the fundamental skills necessary for academic and career success. By the end of M&TSI, students will understand the possibilities that an undergraduate education in engineering, business, or both affords and, at the same time, develop knowledge and skills to prepare them for the future.

For more information about M&TSI and how to apply, see the enclosure and visit <http://www.upenn.edu/fisher/summer-mt>

On behalf of the program, we look forward to receiving and reviewing applications from your students.

With best regards,

January Wuerth, Administrative Director
The Jerome Fisher Program in Management and Technology
University of Pennsylvania
